Muon Barrel Workshop

20 Apr 2009, 14:00 → 21 Apr 2009, 22:30 Europe/Zurich

CERN

Description Primary emphasis of this workshop is on WHETHER we can identify synergies btwn DT, RPC, Alignment for the LHC run. Presentations should aim at:

- 1) describe status and path for preparing for LHC
- 2) enucleate and underline those activities potentially shareable among DT, RPC, Alignment

MONDAY, 20 APRIL

14:00 → 19:20 DPG session1

40-S2-A01

Besides the aforementioned primary emphasis, we would like to discuss the possibility of reference physics plots (like dimuon invariant mass) for data quality control

14:00

RPC trigger performance

20m

Speaker: Michal Szeleper (IPJ)

Slides

14:25

Muon Monitor Raw stream

20m

Speaker: Dr Marcello Abbrescia (Bari Physics Department and INFN)

Slides

14:50

DT time pedestal calibration: news and future performance

20m

Speaker: Mr Antonio Vilela Pereira (Università degli Studi di Torino/INFN Torino)

Slides

15:15

DT and RPC alignment with tracks

20m

Speaker: Pablo Martinez Ruiz Del Arbol (Unknown)

Slides
